PHOENIXTEKK WORKPLACE MARKETPLACE

Productized Microsoft & Cloud Delivery — a Fractional Team in a Catalog

workplace.phoenixtekk.com/start?src=dice · admin@phoenixtekk.com · Remote (US) · Commercial + Government (GCC High)

Profile

A productized solution catalog and fractional delivery capability — 380+ click-to-implement Microsoft & cloud engagements, each delivered as exact, click-by-click documentation plus tested PowerShell automation, at a fixed price with unlimited devices. Engage it instead of hiring: outcomes the day you start, pilot-first and rollback-ready, with a Government (GCC High) variant wherever the setup differs. Can't find your scenario? Ask for it — built in 1 day.

Engage the Catalog vs. Hire a Resource

	Full-time hire	Day-rate consultant	Workplace Marketplace
Time to value	6–12 weeks to source	Days to schedule	**Same day**
Cost model	$150K–$220K/yr loaded	$1,500–$3,000/day (open meter)	**One fixed price / solution**
Reuse	—	Bill again	**Buy once · unlimited devices**
Risk	Ramp, attrition	Variable	**Pilot-first · gated · rollback**
Gov (GCC High)	Rare skill	Extra scoping	**Dedicated variant included**

Solution Portfolio (380+ productized engagements)

- **Microsoft Intune / Endpoint (60+)** — Windows Autopilot & Hybrid Azure AD Join, zero-touch provisioning, Conditional Access, Windows Hello for Business, BitLocker, Application Control (WDAC), Attack Surface Reduction (ASR), compliance policies, app deployment (Win32/LOB/Store), iOS/iPadOS ADE, Android Enterprise, macOS, COD/BYOD, Enrollment Status Page, troubleshooting toolkits.
- **Microsoft Purview (110+)** — Sensitivity labeling at scale, Data Loss Prevention (DLP), Insider Risk Management, Adaptive Protection, eDiscovery (Premium), records management, retention & information governance, AI data-exposure & prompt/response governance, multicloud (AWS/GCP) data-source governance.
- **Entra ID / Identity (10+)** — Privileged Identity Management (PIM), Access Reviews, Entitlement Management, Enterprise App & Service Principal governance, Hybrid Identity with Entra Connect.
- **Security · Defender · Sentinel** — Zero Trust posture, Defender for Endpoint, security baselines & governance, Microsoft Sentinel operations.
- **Networking (20+)** — Always On VPN (device & user tunnel), GlobalProtect & Cisco Secure Client Pre-Logon (PLAP / Start Before Logon), Hybrid Autopilot pre-logon VPN, Cisco ISE (802.1X, posture), ZTNA, Netskope SASE/SSE, Microsoft Tunnel, SCEP/PKCS certificate auth.
- **Migrations (20+)** — Tenant-to-tenant (Exchange/identity/endpoints), SCCM/GPO → Intune, VPN client migrations.
- **Collaboration & Messaging** — Exchange Online, SharePoint Online, Microsoft Teams & Teams Phone governance and configuration.
- **Beyond Microsoft** — Google Workspace, Oracle, Healthcare/HIPAA clinical endpoints, MSP/Managed-services (PSA/RMM), Asset Management.

How Every Engagement Is Delivered

Assess → Configure → Pilot → Validate → Expand — with explicit pass/fail gates, named objects, tested PowerShell (discovery / validation / reporting / remediation), and a documented rollback. Self-guided so your team runs it — or we run it with you.

Custom On Demand

Describe the outcome you need — "Ask for it, we'll build it in 1 day." Start here → workplace.phoenixtekk.com/start?src=dice
