Phoenixtekk Support — Getting Started

Priority Implementation Support

Thank you for purchasing **Priority Implementation Support**. You're now front-of-queue for hands-on help across your Phoenixtekk solution rollout.

How it works

- Priority response — your messages jump the queue.
- Hands-on guidance through implementation, testing, and validation.
- Chat over your preferred app, plus screen-share where it helps.

What happens next

We'll reach out within **1 business day** to open your support session and send your chat or scheduling link. You'll be able to message us from whatever app you prefer — nothing to install.

Questions in the meantime? Email **support@phoenixtekk.com** and reference your order number.
