Phoenixtekk Support — Getting Started

30-Day Chat Support

Thank you for purchasing **30-Day Chat Support**. You now have 30 days of direct chat access to our implementation team to help you deploy and operate your Phoenixtekk solution.

How it works

- Chat with our team over whatever messaging app you already use — SMS, WhatsApp, Microsoft Teams, Slack, Telegram, or the web.
- Ask implementation questions, get unblocked, and validate your rollout.
- Your 30-day window starts when your first session opens.

What happens next

We'll reach out within **1 business day** to open your support session and send your chat or scheduling link. You'll be able to message us from whatever app you prefer — nothing to install.

Questions in the meantime? Email **support@phoenixtekk.com** and reference your order number.
